Art Unit 3404

The following is a quotation of the appropriate paragraphs of 35 U.S.C. § 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --
(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 3, 5, 6, 8, 9, 16, 17 and 22 are rejected under 35 U.S.C. § 102(b) as being anticipated by Chuse. In Fig. 2 of Chuse element 67 is the claimed counter face.

Claims 7, 18-21 are rejected under 35 U.S.C. § 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In the last line of claims 7 and 18 applicant recites alternative no equivalent embodiments which render claim 18 as indefinite.

Claims 10-15 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
